

Monsoon Universal Twin Pumps

Monsoon Universal pumps remove the guesswork from pump selection. Fully automatic, they will function under both positive and negative head conditions and are suitable for installation into an open vented hot and cold water system. Universal Monsoon pumps do not require a gravity flow of water to start.

Application

Universal twin pumps are designed for installation into both the hot and cold water supplies - boosting both equally.

They can be used to:

- Boost hot and cold water services to the complete home, bathroom, kitchen or cloakroom.
- Pressurise the supply in applications such as loft conversions, where outlets are higher than the water source.

Features

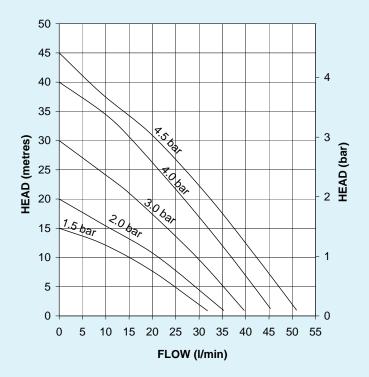

- Robust brass bodied construction
- 1.5 4.5 bar performance options
- Continuously rated
- Hard faced carbon/silicon carbide seal
- Supplied with 22 mm push-in x 300 mm anti-vibration flexible hoses with integral isolating valves.
- G ³/₄ threaded connections.
- Pre-wired with 1.5 metre cable
- Anti-vibration feet.
- 5-year guarantee (subject to conditions)
